**Ameranth, Inc.**

**PRM Overview**

**2011**

---

- Ameranth Inc. - based in San Diego has developed enterprise system software **solutions** for the hospitality and other industries, specifically in restaurants, hotels, casinos, sports stadiums, cruise ships, financial etc. The company has **won 12 prestigious technology awards** .
- Ameranth's powerful and comprehensive PRM system is widely deployed throughout the world - in numerous leading poker rooms - since 2004.
- Ameranth has a very strong IP Portfolio - including multiple strategic gaming/poker patents e.g. (7,431,650 and 7,878,909)
- Ameranth has received strategic investments from **Microsoft, Motorola/Symbol, Springboard Capital & Western Pacific Capital.**

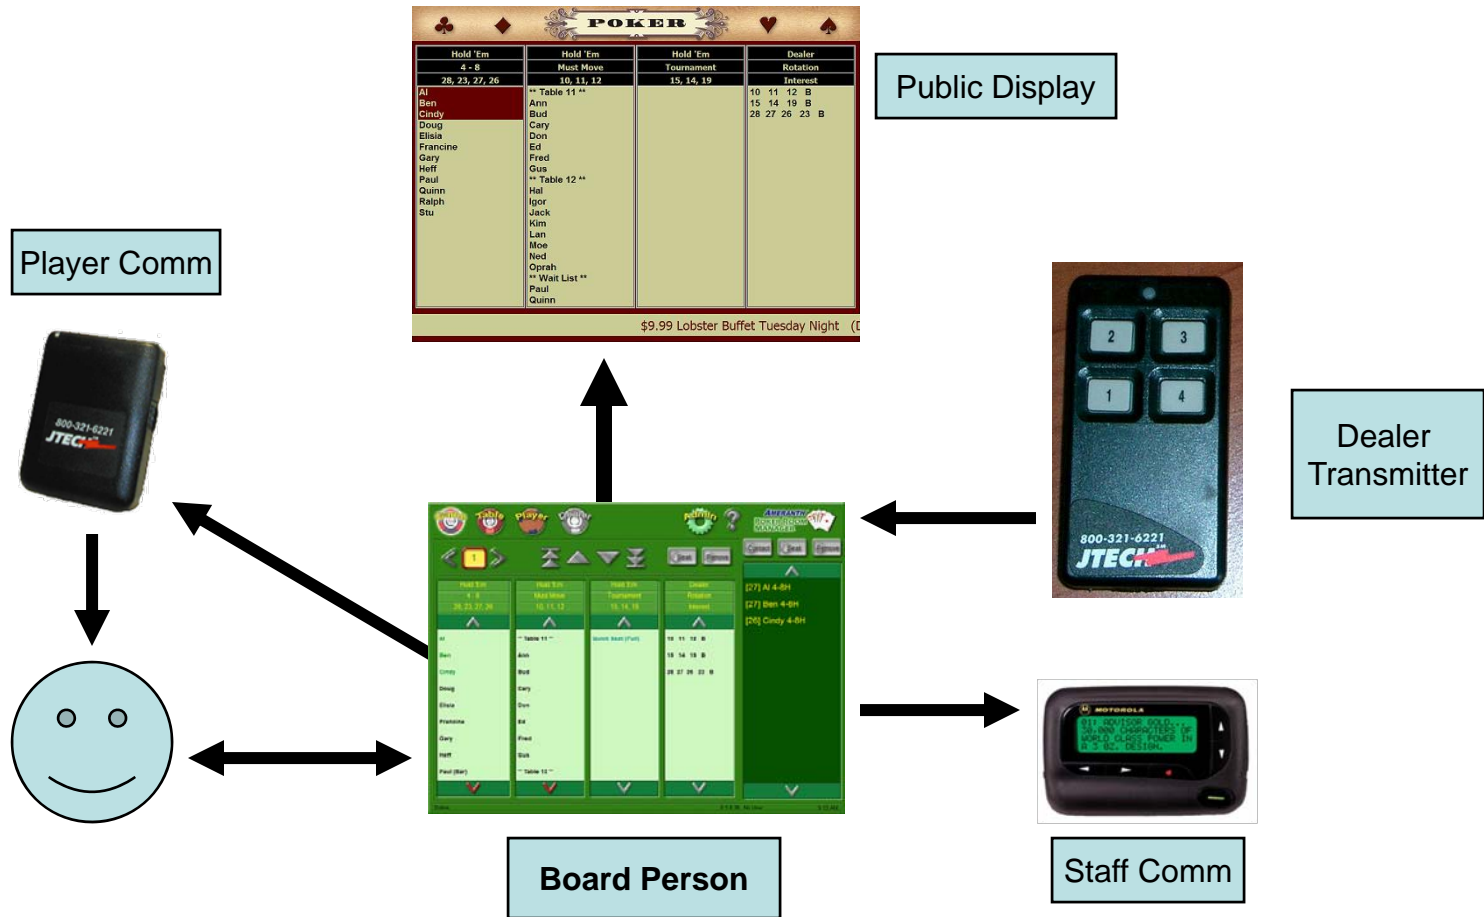

**Ameranth's architecture/framework is ideally designed as a hospitality/gaming industry wireless/web standard communication gateway**

# Ameranth/PRM Advantages

- 'Finger on glass', intuitive, touch-screen PRM user interface, (designed by actual poker room staff) provides the **easiest** to learn, **easiest** to train and **fastest** user interface of anything available.
- PRM **Site Manager** provides casino/IT staff with seamless and total control and support of the system, including all casino public displays etc (with total control/customization of the public displays GUI easily available) – all from a **central** location.
- Most expansive and comprehensive **communications capability** available - with seamlessly integrated wireless dealer transmitters, staff and patron pagers, SMS/text messaging to cell/smart phones, staff alert boards, email, text to voice conversions, kiosk, wireless mobile devices, compatible with all LCD/Plasma screens, web page/web site bi-directional interfaces etc.
- Built with the most modern tools and includes a **robust architecture** – (designed for future growth), thus ensuring that PRM can easily grow and adapt - as your needs change.
- Totally **integrated** system e.g. web/wireless/PC/Kiosk, staff alert boards, player tracking, tournament, waitlist board, public displays, web sites, kiosk etc.
- New breakthrough '**web based**' innovations that are **only** available from Ameranth.
- Responsive, knowledgeable and comprehensive **technical support**.
- Extensive reporting, error detection/correction and security capabilities – are built in.

# PRM Board Wait List Manager

The screenshot displays the AMERANTH POKER ROOM MANAGER interface. At the top, there are navigation icons for Game, Table, Player, Dealer, Admin, and a help icon. The title 'AMERANTH POKER ROOM MANAGER' is visible in the top right corner. Below the navigation icons, there are several control buttons: a table number '1' in a yellow box, four directional arrow buttons, and buttons for 'Seat', 'Remove', 'Contact', 'Seat', and 'Remove'. The main area is divided into four columns representing different game types: 'Hold 'Em 4-8', 'Hold 'Em Must Move', 'Hold 'Em Tournament', and 'Dealer'. Each column has a list of player names and a 'Quick Seat (Full)' indicator. To the right of these columns is a large green panel with a list of wait list entries: '[27] Al 4-8H', '[27] Ben 4-8H', and '[26] Cindy 4-8H'. At the bottom of the interface, there is a status bar showing 'Online', '2.1.0.38 No User', and '9:13 AM'.

Hold 'Em 4-8 28, 23, 27, 26	Hold 'Em Must Move 10, 11, 12	Hold 'Em Tournament 15, 14, 19	Dealer Rotation Interest

# PRM Table Manager

The screenshot displays the PRM Table Manager interface. At the top, there are navigation icons for Game, Table, Player, Dealer, Admin, and a help icon. The main menu includes buttons for Open, Close, Fill Table, Fill Seat, Empty Seat, Interest, Detail, Contact, Seat, and Remove. A 'Main Layout' button is also present. The central area shows a grid of 20 table seats, each with a number and status (e.g., '28 (Full)', '27 (2)', '26 (1)', '25', '24', '23 (Full)', '22', '21', '20', '19 (Full)', '18', '17', '16', '15 (Full)', '14 (Full)', '12 (Full)', '11 (Full)', '10 (Full)', '9', '8'). The right sidebar lists player names: [27] Al 4-8H, [27] Ben 4-8H, and [26] Cindy 4-8H. The bottom status bar shows 'Online', version '2.1.0.38', 'No User', and the time '9:12 AM'.
