

FOR IMMEDIATE RELEASE

Ameranth Signs a New Patent License with Red-Fork Hospitality Solutions, LLC - for its Patented 21st Century Communications™ Web/Wireless Synchronization Inventions

'17th patent license further confirms the value of Ameranth's Patents'

April 15, 2013, San Diego, CA — Ameranth, Inc. announced today that it has entered into a patent license agreement with Red-Fork Hospitality Solutions, LLC of Phoenix, Arizona, www.red-fork.com – a very exciting point of sale company that also provides mobile/web applications for bars, restaurants, hotels, and casinos.

Ameranth's pioneering web/wireless data synchronization inventions have been patented, (U.S. Patent Nos. 6,384,850; 6,871,325; 6,982,733, 8,146,077 - with an additional patent pending), have been widely adopted and deployed, and are now essential to the modern wireless/web hospitality enterprise. The explosive growth of the use of smart phones, social/affinity group networking, wireless networks and related technologies now make the use and licensing of Ameranth's patents essential to achieve a totally synchronized system, *i.e.*, the 21st Century Communications™ system invented in 1998 by Ameranth's visionary inventors. Modern hospitality information technology systems performing functions such as online/mobile ordering, reservations, ticketing and related functionality require the use of Ameranth's patented inventions for synchronized operation. Ameranth has active patent infringement lawsuits against numerous infringing defendants; including Micros, Agilysis, Tabbed Out, OLO, Seamless, GrubHub, Apple, QuikOrder, OpenTable, Agilysis, Order In, MonkeyMedia Inc., - the three largest pizza chains – (Papa John's, Domino's, Pizza Hut) and many of the leading ticketing companies, travel aggregators and hotel companies.

In addition to its new patent license with Red-Fork, Ameranth has patent license agreements with Splickit, Radiant, Menusoft, Restaurant Revolution Technologies, Netwaiter, Brink Software, Savory Mobile, Chownow, Compelcart, Xpient, Munchaway, Ticketmob/Laughstub, Par, Subtldata, Comcash and Snapfinger, and is in active negotiations to provide licenses to several additional hospitality industry product/service providers.

'Red- Fork is a well established and respected innovator which also offers mobile/web functionality to incrementally drive, new business to their restaurant customers and they occupy a valuable niche in this market. We are extremely pleased that through their relationship with Subtldata Inc, they have chosen to join the ever growing list of authorized Ameranth licensees. This patent license

affords them, their partners and their customers full patent coverage and protection in online/mobile and payment processing' stated Vern Yates,' Ameranth's Chairman and Chief Executive Officer. 'Further, we acknowledge the 'cutting edge' role - that Subtledata Inc is playing in the mobile/payments ecosystem, we appreciate and value our relationship with them and we urge others to also partner with Subtledata - for their products/technology and their ability to include very favorable licenses to Ameranth's patents, as part of integrated deal terms.'

"We're pleased to become a licensee to Ameranth's novel patents," said Mark Meury, Chief Executive Officer of Red-Fork. " We are now able to offer the assurance of being fully licensed to our partners and customers. We look forward to working together with both Subtledata and Ameranth well into the future."

The adoption of Ameranth's technology by industry leaders and the wide acclaim received by Ameranth for its technological innovations are just some of the many confirmations of the breakthrough aspects of Ameranth's inventions. Ameranth has received twelve different technology awards (three with "end customer" partners) and has been widely recognized as a hospitality wireless/internet technology leader by almost all major national and hospitality print publications, *e.g.*, The Wall Street Journal, The New York Times, USA Today, and many others. Ameranth was personally nominated by Bill Gates, the Founder of Microsoft, for the prestigious Computerworld Honors Award that Ameranth received in 2001 for its breakthrough synchronized reservations/ticketing system with the Improv Comedy Theatres. In his nomination, Mr. Gates described Ameranth as "one of the leading pioneers of information technology for the betterment of mankind."
