

FOR IMMEDIATE RELEASE

Ameranth Signs a New Patent License with Comcash, Inc. for its Patented 21st Century Communications™ Web/Wireless Data Synchronization Inventions

'15th patent license further confirms the value of Ameranth's Patents'

March 19th, 2013, San Diego, CA — Ameranth, Inc. announced today that it has entered into a patent license agreement with Comcash Inc. of Newport Beach, California, www.comcash.com – a very exciting and successful company providing a variety of Point of Sale systems at bars, restaurants, and other locations.

Ameranth's pioneering web/wireless data synchronization inventions have been patented, (U.S. Patent Nos. 6,384,850; 6,871,325; 6,982,733, 8,146,077 - with an additional patent pending), have been widely adopted and deployed, and are now essential to the modern wireless/web hospitality enterprise. The explosive growth of the use of smart phones, social/affinity group networking, wireless networks and related technologies now make the use and licensing of Ameranth's patents essential to achieve a totally synchronized system, *i.e.*, the 21st Century Communications™ system invented in 1998 by Ameranth's visionary inventors. Modern hospitality information technology systems performing functions such as online/mobile ordering, reservations, ticketing and related functionality require the use of Ameranth's patented inventions for synchronized operation. Ameranth has active patent infringement lawsuits against numerous infringing defendants; including Apple, Micros, Agilysis, Tabbed Out, OLO, Seamless, GrubHub, Exit41, PAR, QuikOrder, OpenTable, and the three largest pizza chains – (Papa John's, Domino's, Pizza Hut) and many of the leading ticketing companies, travel aggregators and hotel companies.

In addition to its new license with Comcash, Ameranth has patent license agreements with Splickit, Radiant, Menusoft, Netwaiter, Brink Software, Savory Mobile, Chownow, Compelcart, Xpient, Munchaway, Ticketmob, Partech, Subtledata and Snapfinger, and is in active negotiations to provide licenses to several additional hospitality industry product/service providers.

'Comcash Inc. is a very well respected point of sale company - with significant plans for integrating the latest mobile/web technologies into its product line going forward and Ameranth believes that they have exceptional potential for growth and success in this market' stated Vern Yates, Ameranth's Chairman and Chief Executive Officer. 'We are extremely pleased that they have joined the ever growing list of authorized Ameranth licensees. This patent license affords them, their partners and their customers full patent coverage and protection in online/mobile and payment processing and we wish them the best as they go forward' stated Yates.

'We're very excited to obtain a favorable patent license from Ameranth and to be able to offer our partners and customers the assurance of being fully licensed for Ameranth's visionary data synchronization patents', stated Richard Stack, Chief Executive Officer for Comcash.

The adoption of Ameranth's technology by industry leaders and the wide acclaim received by Ameranth for its technological innovations are just some of the many confirmations of the breakthrough aspects of Ameranth's inventions. Ameranth has received twelve different technology awards (three with "end customer" partners) and has been widely recognized as a hospitality wireless/internet technology leader by almost all major national and hospitality print publications, *e.g.*, The Wall Street Journal, The New York Times, USA Today, and many others. Ameranth was personally nominated by Bill Gates, the Founder of Microsoft, for the prestigious Computerworld Honors Award that Ameranth received in 2001 for its breakthrough synchronized reservations/ticketing system with the Improv Comedy Theatres. In his nomination, Mr. Gates described Ameranth as "one of the leading pioneers of information technology for the betterment of mankind."
