

FOR IMMEDIATE RELEASE

Ameranth and Menusoft Resolve Patent Infringement Disputes

October 19, 2011, San Diego — Ameranth, Inc. announced today that Ameranth and Menusoft Inc. have resolved the patent infringement disputes between them. Menusoft will continue to sell its Digital Dining System and will be able to couple it with an online ordering system under license from Ameranth.

“We are very pleased to have reached this settlement and license agreement with Menusoft,” stated Vern Yates, Ameranth’s Chairman and Chief Executive Officer. ‘We envision this as continuing the positive momentum from our other recently announced new patent license agreements’.

Ameranth’s pioneering inventions have been widely adopted and are thus now essential to the modern wireless/web hospitality enterprise of the 21st Century. The explosive growth of smart phones, social/affinity group networking, wireless networks and related technologies now make the use and licensing of Ameranth’s patents essential to achieve a totally synchronized system, i.e., the 21st Century Communications™ system invented in 1998 and then patented by Ameranth’s visionary inventors. Modern hospitality systems performing functions such as online/mobile ordering, reservations, ticketing and related functionality require Ameranth’s patents for their synchronization.

The adoption of Ameranth’s technology by industry leaders and the wide acclaim received by Ameranth for its technological innovations are just some of the many confirmations of the breakthrough aspects of Ameranth’s inventions. Ameranth has received twelve different technology awards (three with “end customer” partners) and has been widely recognized as a hospitality wireless/internet technology leader by almost all major national and hospitality print publications, e.g., The Wall Street Journal, New York Times, USA Today and many others. Ameranth was personally nominated by Bill Gates, the Founder of Microsoft, for the prestigious Computerworld Honors Award that Ameranth received in 2001 for its breakthrough synchronized reservations/ticketing system with the Improv Comedy Theatres. In his nomination, Mr. Gates described Ameranth as “one of the leading pioneers of information technology for the betterment of mankind.”
