

FOR IMMEDIATE RELEASE

**Ameranth Signs a New Patent License with
Savory Mobile LLC for its Patented 21st Century
Communications™ Web/Wireless
Synchronization Inventions**

'Another new patent license further confirms the value of Ameranth's Patents'

February 24, 2012, San Diego, CA — Ameranth, Inc. announced today that it has entered into a patent license agreement with Savory Mobile LLC of Marietta, Georgia, www.savorymobile.com a new company in the online/mobile restaurant ordering market.

Ameranth's pioneering web/wireless data synchronization inventions have been patented, (U.S. Patent Nos. 6,384,850; 6,871,325; 6,982,733 - with additional patents pending), have been widely adopted and deployed, and are now essential to the modern wireless/web hospitality enterprise. The explosive growth of the use of smart phones, social/affinity group networking, wireless networks and related technologies now make the use and licensing of Ameranth's patents essential to achieve a totally synchronized system, *i.e.*, the 21st Century Communications™ system invented in 1998 by Ameranth's visionary inventors. Modern hospitality information technology systems performing functions such as online/mobile ordering, reservations, ticketing and related functionality require the use of Ameranth's patented inventions for synchronized operation. Ameranth has active patent infringement lawsuits against numerous infringing defendants; including Seamless, GrubHub, Exit41, PAR, QuikOrder, OpenTable, TicketMob/Laughstube and the three largest pizza chains - Papa John's, Domino's and Pizza Hut.

"We are delighted to secure this new patent license agreement with Savory Mobile" stated Vern Yates, Ameranth's Chairman and Chief Executive Officer. "While they are a relatively new company, we are pleased that they independently sought a license to our patents - to ensure that they and their customers have patent coverage from this point forward. We wish them much success ahead." added Yates.

"We recognize the value of Ameranth's patents and we are pleased to have obtained a license to the visionary inventive concepts embodied in their web/wireless data synchronization patents" stated Franklin Young, CEO of Savory Mobile LLC.

The adoption of Ameranth's technology by industry leaders and the wide acclaim received by Ameranth for its technological innovations are just some of the many confirmations of the breakthrough aspects of Ameranth's inventions. Ameranth has received twelve

different technology awards (three with “end customer” partners) and has been widely recognized as a hospitality wireless/internet technology leader by almost all major national and hospitality print publications, e.g., The Wall Street Journal, The New York Times, USA Today, and many others. Ameranth was personally nominated by Bill Gates, the Founder of Microsoft, for the prestigious Computerworld Honors Award that Ameranth received in 2001 for its breakthrough synchronized reservations/ticketing system with the Improv Comedy Theatres. In his nomination, Mr. Gates described Ameranth as “one of the leading pioneers of information technology for the betterment of mankind.”
